32 new works by 43 different authors added to PM World Library

PM World Collection grows to more than 1350 project management articles, papers & other works by 630 different authors in more than 60 countries

10 July 2015 – Dallas, London, Sydney – PM World has announced that 32 new articles, papers and other original works about program and project management (P/PM) were added to the PM World Library (PMWL) this month. These contributions by 43 different authors in 17 countries were published in the July 2015 edition of the PM World Journal (PMWJ). They can now be found among the most recent papers, articles and book reviews on the PMWL home page at www.pmworldlibrary.net.

The new additions bring the total in the PM World Collection to over 1350 original works by 614 different authors from 60+ countries. The collection is growing each month by approximately 30 new works by many different authors; of the 43 authors this month, 17 were new to the journal and library. All works in the PMWL can be accessed at <http://pmworldlibrary.net/pm-world-collection/>. Profiles of all authors in the library, along with access to their works, can be found at <http://pmworldlibrary.net/author-showcase/>.

According to PMWL Director David Pells, “We recently served as media partner for two major project management conferences, one at the University of Latvia and the other at the University of Maryland in the USA, so we are republishing some good conference papers in the journal now. This month’s second editions are exceptional.”

New authors in July included Dr. Juris Binde (Latvia), Dr. Ngwu Chukwuemeka (Nigeria), Roger Davies (UK), Zane Demjanova (Latvia), Dr. John Ezeokonkwo (Nigeria), Petek Kabakci (Turkey), Meda Keleckaite (Lithuania), Evelina Meiliene (Lithuania), Alex Marques (USA), Ilze Saulite (Latvia), Yerry Silitonga (Indonesia), Rohit Tammana (USA), Ron Terbush (USA), Roel Wolfert (Netherlands) and Dr. Vita Zvirbule (Latvia). New works from 27 authors already included in the library were also added.

“We also launched a new series by Alan Stretton on the application of general management principles to project management,” Pells adds. “Our series contributors are all very experienced and knowledgeable project management experts, so their articles should be read every month. That especially includes this new one by Dr. Stretton. The reports from our correspondents are also very interesting, many with great photos. I’d like to thank all of our contributors for sharing their works this month.”

The PM World Library (PMWL) is a global resource for continuous learning in portfolio, program and project management (P/PM). The PMWL is produced and maintained by PM World that also publishes the monthly PM World Journal (PMWJ), a web-based monthly publication featuring dozens of articles, papers and news stories about projects and project management around the world.
