

For Immediate Release

27 new works by 33 authors added to PM World Library

PM World Collection grows to 1852 project management articles, papers & other works by 813 different authors in more than 60 countries

10 October 2016 – Dallas, London, Sydney – PM World has announced that 27 new articles, papers and other original works about program and project management (P/PM) have been added to the PM World Library (PMWL) this month. These contributions by 33 different authors in 11 different countries were published in the October 2016 edition of the [*PM World Journal*](#) (PMWJ). They can now be found among the most recent papers, articles and book reviews on the PMWL home page at www.pmworldlibrary.net.

The new additions bring the total in the PM World Collection to over 1850 original works by more than 810 different authors in 60+ countries. The collection is growing each month by approximately 30 new works by many different authors; of the 33 authors this month, 13 were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at <http://pmworldlibrary.net/author-showcase/>.

According to PMWL Director **David Pells**, “This month’s journal contains some outstanding featured papers by serious researchers in Kenya, Latvia, Nigeria and Zimbabwe. Alan Stretton has authored another serious work, also included as a featured paper this month. And Mario and Joseph Kossmann have contributed an interesting paper on the application of game theory to project design.”

New authors in September include Joachim Adebayo Adenusi (Nigeria/UK), Abiola Adeyemo (Nigeria), Alejandro Arroyo (Nigeria), Schenita Floyd (USA), Charlie Green (USA), Thomas Grisham (USA/Switzerland), Joseph Kossmann (UK), Suzanne Mallette (USA), Tatenda Goodman Nhapi (Zimbabwe), Raphael Ondeko Nyonje (Kenya), Paul Amollo Odundo (Kenya), Christian Azuka Olele (Nigeria) and Charles Mallans Rambo (Kenya). New works from 20 authors already included in the library were also added.

“The series articles this month are also very interesting,” Pells adds. “The advisory and commentary articles should be of interest to some readers, as I’m sure the reports will be. The interview provided by Ipek Ozguler in Turkey was great to see, since I know Murat Erkan from our meetings years ago at conferences in Istanbul. Finally, I refer all readers to the second editions this month, all three on relatively hot or new topics in the PM field – agile, lean and smart machines. This month’s journal was fun to produce!”

In addition to the original papers, more news articles were added to the library archives this month, bringing the total to well over 2,000 articles. News archives can be accessed at <http://pmworldlibrary.net/ppm-news/>. See archives of past editions of the PMWJ at <http://pmworldlibrary.net/ppm-journals-and-magazines/>.

The **PM World Library (PMWL)** is a global resource for continuous learning in portfolio, program and project management (P/PM). The PMWL is produced and maintained by PM World that also publishes the monthly ***PM World Journal (PMWJ)***, a digital monthly publication featuring dozens of articles, papers and news stories about projects and project management around the world.
