29 new works by 37 authors added to PM World Library

PM World Collection grows to 1957 project management articles, papers & other works by 855 different authors in more than 60 countries

10 November 2016– Dallas, London, Sydney – PM World has announced that 29 new articles, papers and other original works about program and project management (P/PM) have been added to the PM World Library (PMWL) this month. These contributions by 37 different authors in 15 different countries were published in the November 2016 edition of the [*PM World Journal*](#) (PMWJ). They can now be found among the most recent papers, articles and book reviews on the PMWL home page at www.pmworldlibrary.net.

The new additions bring the total in the PM World Collection to over 1957 original works by more than 850 different authors in 60+ countries. The collection is growing each month by approximately 30 new works by many different authors; of the 37 authors this month, 11 were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at <http://pmworldlibrary.net/author-showcase/>.

According to PMWL Director **David Pells**, “We want to publish articles and papers that may help solve regional or global problems. Several of this month’s papers do just that, addressing such issues as corruption, economic development and orphan support projects. Researchers in African and Asian countries are now studying how program and project management concepts and practices can help solve local problems. It’s an exciting trend that we are happy to support.”

New authors in November include Dr. Moustafa Ismail Abu Dief (Saudi Arabia), Dr. Hatem Shaker El Beheiry (Egypt), Jorge Galvan (USA), Jamie B. Gelbtuch (USA), Helen Green (UK), Patrick Hoverstadt (UK), Prof Mostafa Hassan Aly Kotb (Egypt), Lucy Loh (UK), Fábio Mourão (Brazil), Emma Regan (USA) and Diana Romagnoli (USA). New works from 26 authors already included in the library were also added.

“The two interviews by our correspondents in Belgium and Turkey are also quite interesting,” Pells adds. “And I am thrilled that we continue to receive interesting and highly useful articles to publish, with ten more added this month. The reports from correspondents in various countries seem to be getting more interesting as well, and the second edition papers this month are not to be missed.”

In addition to the original papers, more news articles were added to the library archives this month, bringing the total to well over 2,000 articles. News archives can be accessed at <http://pmworldlibrary.net/ppm-news/>. See archives of past editions of the PMWJ at <http://pmworldlibrary.net/ppm-journals-and-magazines/>.
