### ***PM World Collection grows to 1957 project management articles, papers & other works by 855 different authors in more than 60 countries***

16 December 2016– Dallas, London, Sydney – PM World has announced that 24 new articles, papers and other original works about program and project management (P/PM) have been added to the PM World Library (PMWL) this month. These contributions by 27 different authors in 15 different countries were published in the December 2016 edition of the [PM World Journal](#) (PMWJ). They can now be found among the most recent papers, articles and book reviews on the PMWL home page at [www.pmworldlibrary.net](http://www.pmworldlibrary.net).

The new additions bring the total in the PM World Collection to over 1980 original works by more than 860 different authors in 60+ countries. The collection is growing each month by approximately 25 new works by many different authors; of the 27 authors this month, 8 were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at <http://pmworldlibrary.net/author-showcase/>.

According to PMWL Director **David Pells**, “We were happy to see so many good papers and articles offered for the final 2016 edition of the PMWJ. Those works are now in the library, tagged to various key words and categories and accessible from both the library home page as well as individual author showcases. Some of these works are results of research, some are significant, all add to the professional body of knowledge.”

New authors in November include Prof Khaled al Medallah (Egypt), Prof Mohamed S. Atwa (Egypt), Michael Borts (USA), Rebecca Brady (USA), Ahmed S. Elwan (Egypt/Saudi Arabia), Oliver Lehmann (Germany), Ihuoma Okwara (Nigeria) and Mohammed El Rashid (Sudan). New works from 19 authors already included in the library were also added.

“The paper by Paul Giammalvo is particularly meaningful,” Pells adds. “as it is an update to his benchmarking research on project management certifications around the world. The reports from correspondents are also interesting, including Jouko Vaskimo’s report on the recent meeting in Athens of ISO technical committee 258 that is working on a new international standard for project, program and portfolio management.”

In addition to the original papers, more news articles were added to the library archives this month, bringing the total to well over 2,100 articles.
