PM World Collection grows to 1984 project management articles, papers & other works by 869 different authors in more than 60 countries

12 January 2017– Dallas, London, Sydney – PM World has announced that 27 new articles, papers and other original works about program and project management (P/PM) have been added to the PM World Library (PMWL) this month. These contributions by 34 different authors in 15 different countries were published in the January 2017 edition of the [*PM World Journal*](#) (PMWJ). They can now be found among the most recent papers, articles and book reviews on the PMWL home page at www.pmworldlibrary.net.

The new additions bring the total in the PM World Collection to 1984 original works by 869 different authors in 60+ countries. The collection is growing each month by approximately 25 new works from many different authors; of the 34 authors this month, 14 were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at <http://pmworldlibrary.net/author-showcase/>.

According to PMWL Director David Pells, “We’ve launched 2017 with a strong edition. Some works challenge us as individual professionals; others challenge the PM profession itself. Some point out shortfalls; others point to opportunities. I think many of these new works expand our perspectives in multiple ways.”

New authors in November include Joanna Aldridge (USA), Prof Mary Ashlock (USA), Dr. William Brantley (USA), Juliana Cariello (Brazil), Eskil Skstedt (Sweden), Pietro Guides (Brazil), Rose-Hélène Humeau (France), Edson Marinho (Brazil), Sankaran Ramani (India), Celso Ramos (Brazil), Martin Sedlmayer (Switzerland), John Shea (USA), Charlotte Wallis (UK) and Torbjörn Wenell (Sweden). New works from 20 authors already included in the library were also added.

“I was happy to have a student paper this month, by Charlotte Wallis in UK,” Pells adds. “Also, we are happy to introduce an important new series this month on managing and working in project society based on the book that won PMI’s 2016 book of the year award. This edition also contains works on varied and interesting topics, ranging from diversity intelligence and resilience to project management in the wine growing region of Argentina. All great reads!”

In addition to the original papers, more news articles were added to the library archives this month, bringing the total to well over 2,100 articles.
