

18 new works by 24 authors added to PM World Library

PM World Collection grows to 2074 project management articles, papers & other works by 900 different authors in more than 60 countries

15 April 2017– Dallas, London, Sydney – PM World has announced that 18 new articles, papers and other original works about program and project management (P/PM) have been added to the PM World Library (PMWL) this month. These contributions by 24 different authors in 14 different countries were published in the April 2017 edition of the [PM World Journal](#) (PMWJ). They can now be found among the most recent papers, articles and book reviews on the PMWL home page at www.pmworldlibrary.net.

The new additions bring the total in the PM World Collection to over 2070 original works by 900 different authors in 65+ countries. The collection is growing each month by 20-30 new works from many different authors; of the 24 authors this month, 6 were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at <http://pmworldlibrary.net/author-showcase/>.

According to PMWL Director David Pells, “We published fewer works this month, but several of those included are really worth reading. The letters to the editor are also interesting, and Kik Piney’s ‘Devil’s Dictionary of Project Management Terms’ is very entertaining.”

New authors in February include Rasoul Abdolmohammadi (Iran), Ian Brooks (UK), Catherine Cockrell (USA), Jean-Pierre Debourse (France), Mats Ragnarsson (Sweden) and Fred Vokoboynikov (USA). New works from 18 authors already included in the library were also added.

“The reports from Argentina, Finland, Spain and UK are again really interesting,” Pells adds. “The second edition papers this month are by pioneers in the project management field, Russ Archibald and Bob Youker. And I hope I did not offend too many with my editorial, ‘Agile from a Distance’, about which I would welcome feedback.”

In addition to the original papers, more news articles were added to the library archives this month, bringing the total to well over 2,200 articles.
