15 June 2018 – Dallas, London, Sydney – PM World has announced that 45 new articles, papers and other original works about program and project management (P/PM) have been added to the PM World Library (PMWL) this month. These contributions by 49 different authors representing 16 countries were published in the June 2018 edition of the [PM World Journal](#) (PMWJ). They can now be found among the most recent papers, articles and book reviews on the PMWL home page at www.pmworldlibrary.net.

The new additions bring the total in the PM World Collection to 2,636 original works by 1,146 different authors in 65+ countries. The collection is growing each month by 35+ new works from many different authors; of the 49 authors this month, 27 were new to the journal and library.

Profiles of all authors in the library, along with access to their works, can be found at <http://pmworldlibrary.net/author-showcase/>.

According to PMWL Director David Pells, “Our book review program in partnership with three PMI chapters in the USA is now producing a lot of good book reviews. The reviews are of project management titles as well as more general topics such as leadership and teamwork. The book reviews that we publish all create new knowledge, so I hope our readers take them seriously.”

New authors in June included Stavros Barmapas (Greece), Simon Bryard (France), Michael Carlew (USA), Mukuka Chipanta (USA), Edozie Chukwuma (Nigeria), Mbosowo Ebong Ekpo (Nigeria), Calvin Flemmings (USA), Kimberly Mae Escalera (The Phillipines), Sarah Bennani Kemmoun (France), Marton Marosszeky (Australia), Kevin Martin (USA), Juan Martinez (USA), Roy Mikhael (France), Maureen Njoki Munyori (Kenya), Frank Murphy (USA), John Oakland (UK), Solene Paillart (France), Linda Hughes Peterson (USA), Mathieu Sabadie (France), Gus Sanchez (USA), John Schlichter (USA), Vedna Sharma (India), Linus Toy (USA), Kimberly Varner (USA), Fei Wang (China), Peng Wang (China) and Shangxin Yang (China). New works from 21 authors already included in the library were also added.

“All of the works this month are worth reading, in my opinion,” Pells adds. “Read John Schlichter’s account of a secret meeting of PM leaders in 2000 for some real news and useful commentary about the future of standards. The featured papers also include some important new knowledge, and the reports and student papers are fascinating.”
