One more year, the PMI Madrid Spain Chapter has been represented at the PMI LIM and at the PMI EMEA Congress in London. This year the PMI EMEA Congress counted 850

attendees. There were a lot of representatives from Africa (Nigeria, Ghana, Botswana and Kenia). Mercedes Martinez (PMI Madrid Spain Chapter Secretary) attended that meeting working on the PMBOK Sixth Edition translation. Alfonso Bucero, represented the PMIEF (PMI Educational Foundation) as a “PMIEF Engagement Committee member”. Seventeen representatives from PMI EMEA Chapters went by the PMIEF kiosk, where showed up a lot of interest about the activities that such foundation is doing. Both Spanish professionals (Mercedes and Alfonso) shared that important event that usually is celebrated in a chosen city of EMEA region, this year London was that city (at the Excel Area).

In the following picture appears one of the PMI Founders (James Snyder) one of the examples to follow as a person dedicated to the profession for his life. The energy and passion from Mr. Snyder are admirable.

BIM en CONSTRUMAT. Barcelona, May 19-23rd 2015

Biometrical and “International Event of Barcelona”, got an agreement to launch Networking BIM, a platform that connects several construction agents and several strategic stakeholders related to BIM (Building Information Modeling). The purpose is to generate real business opportunities. Both will collaborate in the promotion of BIM at the Beyond Building Barcelona (Construmat) event from May 19th to 23rd 2015.

AEDIP y BIMETICA signed up a collaboration agreement. The purpose of that agreement is to show the strategic value from Project Management firms to that parametric model. Several Project Management companies will discuss with others state of the art agents, the borders and challenges that are showing the big effort the construction industry needs to do to achieve the right competition degree.
