23 new works by 27 authors added to PM World Library

PM World Collection grows to 1588 project management articles, papers & other works by 732 different authors in more than 60 countries

11 February 2016– Dallas, London, Sydney – PM World has announced that 23 new articles, papers and other original works about program and project management (P/PM) have been added to the PM World Library (PMWL) this month. These contributions by 27 different authors in 14 countries were published in the February 2016 edition of the [***PM World Journal***](#) (PMWJ). They can now be found among the most recent papers, articles and book reviews on the PMWL home page at www.pmworldlibrary.net.

The new additions bring the total in the PM World Collection to 1588 original works by 732 different authors in 60+ countries. The collection is growing each month by approximately 30 new works by many different authors; of the 27 authors this month, 6 were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at <http://pmworldlibrary.net/author-showcase/>.

According to PMWL Director **David Pells**, “We had fewer works added this month, primarily due to fewer reports and book reviews. On the other hand, we added another new series this month on communications by Ann Pilkington in the UK based on her Gower book titled ‘Communicating Projects’.”

New authors in October included **Will Armistead** (USA), **Wayne McPhee** (Canada), **Subhashini Rao** (India), **Amela Torkic** (Bosnia and Herzegovina), **Magda Stepanyan** (Netherlands) and **Sertug Yilmaz** (Turkey). New works from 21 authors already included in the library were also added.

“The featured papers and original articles this month are outstanding,” Pells adds. “And readers should not miss reading the case study, a story about a wedding project in India that avoided disaster partially due to the fact that the bride’s father is an experienced project management expert.”

In addition to the original papers, more news articles were added to the library archives this month, bringing the total to well over 1,500 articles.
