Wideman Project Management Website updates announced

1 April 2016 – Ontario, Canada – **Max Wideman** has announced updates to his popular project management website, www.maxwideman.com.

In **Papers** this month, Max Wideman asks: [Are we ready for A New Project Management Framework Standard?](#) Max points out at least nine areas that are generally poorly understood by the project management community-at-large and that should be tackled first. He provides supporting reasons and suggested resolutions.

Note that in this case "Project Management" refers to the whole domain of project activity from the portfolio level, through Program Management down to the individual project. I.e., not just "Single Project Management" (SPM).

If you are looking for answers, guidelines or templates, check out Max's **Issacons** - "Issues and Considerations" - that are presented in bullet form for quick and easy reference by project managers.

Have you seen Max's book **A Management Framework for Project, Program and Portfolio Integration**? For information or to order a copy, visit http://www.maxwideman.com/papers/framework_book/intro.htm. Do you have a project management question? Find the answer at: <http://www.maxwideman.com>.

Max Wideman is one of the world's best-known project management authorities. An engineer and professional project manager, his experience includes systems, social and environmental projects, as well as design and engineering projects. He is a Fellow of the Project Management Institute, of which he is past president and chairman and for which he led the development of the 1987 version of the Project Management Body of Knowledge. He is also a Fellow of the Institution of Civil Engineers (UK), the Engineering Institute of Canada, and the Canadian Society of Civil Engineering. His personal web site at <http://www.maxwideman.com> is a source of superior project management knowledge and information. It is free to the public.
