### **Jacobs Successfully Completes Project Work for Sunstar Americas**

#### ***Project management services provided for new manufacturing facility and headquarters***

3 August 2016 – Pasadena, CA, USA – Jacobs Engineering Group Inc. announced today that it has successfully completed project management services for Sunstar Americas, Inc.'s manufacturing facility and North American headquarters in Schaumburg, Illinois.

Under the terms of the contract, Jacobs provided overall project management services, including risk, cost, schedule and relocation management; process support; manufacturing execution system development; and project execution mentoring. In addition to expanding the company's manufacturing capacity, the 302,000 square-foot facility includes a research and design center, specialized manufacturing clean rooms and corporate offices.

In making the announcement, Jacobs Senior Vice President Specialty Chemicals **Andrew Berryman** stated, "Successfully completing this project with Sunstar demonstrates our global project management and engineering capabilities. We look forward to growing our relationship and providing Sunstar with additional support as they continue to expand their product offerings in various end markets."

The new facility is home to approximately 400 Sunstar employees; the company anticipates that number to grow substantially in coming years.

Jacobs Engineering Group Inc. (NYSE: JEC) is one of the world's largest and most diverse providers of professional technical services. With annual revenues of over \$10 billion, Jacobs offers full-spectrum support to industrial, commercial and government clients across multiple markets. Services include scientific and specialty consulting as well as all aspects of engineering, construction, operations, maintenance and project management. Based in Pasadena, California, USA, Jacobs has more than 200 offices in over 25 countries. More at <http://www.jacobs.com/>
