### **APM Introduction to Programme Management 2nd edition**

19 August 2016 – London, UK – The Association for Project Management (APM) in the United Kingdom has announced the publication of the second edition of the *APM Introduction to Programme Management*. [For information about the book, click here.](#)

“This update to *APM Introduction to Programme Management* brings new insights as to what programme management is all about. It is an ‘easy read’ for the top executives, for those relatively new to programme management who have a thirst for knowledge and for the project management community who should, and need to, understand how their project management skills play into the ‘bigger picture’.” Sir John Armit

More than a decade after its release, this substantial refresh of *APM Introduction to Programme Management* brings practitioners up-to-date with the latest developments in the discipline.

As well as the fundamental principles – what a programme is, how it works and how to review progress - the guide also explores the changing environment in which programmes exist, their relationship to the strategic context of organisations as well as ‘new’ frameworks and ways of working, including the application of agile techniques.

*APM Introduction to Programme Management 2<sup>nd</sup> edition* is one of APM's core introductory texts. Written by experienced practitioners from APM's [Programme Management Specific Interest Group \(SIG\)](#), it is recommended reading for anyone joining a programme team – or those who want to know how to interact with the programme.

Founded in 1972, the APM is a registered charity in the UK with more than 21,000 individual and 540 corporate members. The APM is dedicated to the development of professional project, programme and portfolio management across all sectors of industry and beyond. APM, with branches throughout the UK and in Hong Kong, is the UK national representative in the International Project Management Association (IPMA). More information at <http://www.apm.org.uk>
