

## P/PM PROFESSION NEWS

### **AACE International launches new website**

3 November 2016 – Morgantown, WV, USA – AACE International has announced a newly designed [AACE International website](#). Their new, dynamic, and responsive website will work effectively on a PC, laptop, tablet, or smartphone. They have also made the new website faster, more user-friendly, and easier to navigate.

One of the most noticeable changes in the new website is the navigation, which is separated into five main categories: Membership, Certification, Professional and Technical Resources, Meetings & Events, and About AACE.

The Membership area includes information for potential members on AACE membership options and member benefits. Members will find information on awards, Sections, and volunteer opportunities. Certifications will guide you through information on all 8 of AACE's certifications and how to recertify. Professional and Technical Resources includes all of AACE's technical and educational resources, including access to the technical products and virtual communities. Meetings and Events provides information on the Annual Meeting, other events and information for sponsors and exhibitors. About AACE is where you will find detailed information about the Association including volunteer leaders and staff, and our governing documents.

If you previously bookmarked AACE's website, you will need to update your bookmarks as the URL has changed for nearly all of the pages. Logging in for the first time will require you to select "forgot password," which will prompt the system to email your username and password. Once you receive the login credentials, you will be taken to your profile to ensure we have the most up to date information. If you do not have an AACE profile you will be directed to create one.

If you have previously purchased items, you can easily access those products after you login. First go to "My Products", then select "your name" in the top right-hand corner. This is AACE's brand new platform (PATH) where their products and training modules are now hosted. For any questions, suggestions, feedback or comments, please email [AACE Headquarters](#).

Founded in 1956, AACE International is a professional society for cost estimators, cost engineers, schedulers, project managers, and project control specialists. AACE International is industry independent, and has members in 78 countries and 71 local sections. AACE offers a monthly journal, online bookstore, education, library, certification, annual conference, professional development opportunities, employment information, executive search services, member discounts and other benefits. For more information, visit <http://www.aacei.org/>.
