## Adapt-India Project Management System

24 March 2016 – Gurgaon, India – A new resource has been added to the PM World Library related to a project management software company in Gurgaon, India. The new resource is titled “**Adapt-India Project Management System**”.

Adapt Software specializes in Microsoft SharePoint and offers products & services for SharePoint customers including Office 365 customers. Adapt has worked with SharePoint since beginning of its introduction. With years of practical experience working with client needs, they are positioned to assist clients in meeting all your SharePoint objectives regardless of the industry they are in.

Adapt offers readymade Add-ins for SharePoint and Office 365 that automate customer’s business processes such as Help Desk, Leave and Attendance and Project Management. Adapts’ SharePoint Add-ins are being used by customers across the globe.

**Adapt-India’s Project Management System:** Project Management System (PMS by Adapt) is designed with highest level of functionality and simplicity that helps clients to execute their projects by involving stakeholders at every level. Unlike other project management software, PMS by Adapt can be implemented and learned within a few days. It is easy to use and needs less training time for company’s field force to be up and running, and improving immediately. It helps to manage your projects within defined budgets.

To access this new resource, go to <http://pmworldlibrary.net/ppm-products-and-services/>, click on P/PM Advisors and Consultants1 scroll down to India and click on “Adapt-India Project Management System”. Must be a registered and logged-in member to access.
