Flour Daniel (India) – A World Leading Project Management Company

Resource provided by Nitish Mohan

Access to Fluor India added to PM World Library

8th April 2016 – Gurgaon, India – A new resource has been added to the PM World Library related to project management services companies. The new resource is titled “Flour Daniel (India) – A World Leading Project Management Company”. Fluor’s Indian presence has been in Gurgaon since 1995.

Fluor is consistently regarded as one of the top project and program management companies in the global building industry. As project manager, Fluor integrates the activities of the engineering, procurement, and construction (EPC) functions to meet Client expectations. As overall program manager on large-scale capital projects involving billions of dollars of goods and services in challenging locations, Fluor integrates the activities of all contractors and subcontractors, often from diverse backgrounds and cultures, to ensure the success of the program.

Fluor is recognized for its ability to deliver projects safely, on time, and within budget. One of the reasons Clients choose Fluor is its ability to provide all the necessary services in-house, eliminating the need for multiple consultants. This capability is changing the face of program management. Fluor's fully integrated teams offer services and support in design, construction, fabrication, procurement, project controls, safety, quality, and operations and maintenance. Fluor also has established systems, tools, procedures, and processes for project management.

To access this new resource, go to http://pmworldlibrary.net/ppm-products-and-services/, click on “P/PM Advisors and Consultants 2 or 5”, scroll down to India. Free, but must be a registered and logged in to access.
