

SGS Group – Project Management and Project Risk management Company

Resource provided by: [Nitish Mohan](#)

15 April 2016 – Chennai, India – A new resource has been added to the PM World Library related to a construction project management and project risk management company based in 6 locations in India. The new resource is titled “**SGS GROUP- A Construction Project Management and Project Risk Management Company**”.

SGS Group has presence in more than 20 countries and its Indian HQ is in Chennai, Tamil Nadu, India. SGS’s project management services provide the owners and contractors with comprehensive supervision, inspection and commissioning services for all types of projects – no matter the size or location.

SGS Group gives a comprehensive and planned approach to addressing project risks. In construction, project’s success depends on thorough planning that includes contingencies for the project budget and schedule. SGS delivers a clear, quantified review of the risks associated with the cost, performance and scheduling of a project. As a result, business and funding partners have increased confidence in their management approach and have ability to make project decisions with more certainty.
