32 new works by 43 authors added to PM World Library

PM World Collection grows to 2056 project management articles, papers & other works by 900 different authors in more than 65 countries

15 March 2017– Dallas, London, Sydney – PM World has announced that 32 new articles, papers and other original works about program and project management (P/PM) have been added to the PM World Library (PMWL) this month. These contributions by 43 different authors in 21 different countries were published in the March 2017 edition of the [PM World Journal](#) (PMWJ). They can now be found among the most recent papers, articles and book reviews on the PMWL home page at www.pmworldlibrary.net.

The new additions bring the total in the PM World Collection to over 2050 original works by 900 different authors in 65+ countries. The collection is growing each month by approximately 30 new works from many different authors; of the 43 authors this month, 13 were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at <http://pmworldlibrary.net/author-showcase/>.

According to PMWL Director David Pells, “The range of topics addressed in articles and papers this month was fascinating. We seem to be attracting more research-based papers by academic researchers, while the articles are by very knowledgeable project management professionals and leaders. It’s becoming a good mix each month.”

New authors in February include Ibrahim Abdlrashid (Egypt), Priti Asthana (USA), Khlood Elsayed (Egypt/USA), Eric Gitta (Uganda), Ngaire Hunt (Australia/New Zealand), Prof Douglas Long (Australia), Jyoti Madabhushi (India), Prof Peter Neema-Abooki (Uganda), Art Pratt (USA), Rex B. Reagan (USA), Alan Shefveland (USA), Prof Jörg Sydow (Germany) and Zeta Yarwood (UAE). New works from 30 authors already included in the library were also added.

“I appreciated Russ Archibald’s letter to the editor in response to my February editorial about ‘the big revers’, the apparent lack of ethics in the Trump administration,” Pells adds. “We will have two more next month on the same topic, as it seems to have struck a chord. Of course, not everyone agrees with me so that too is interesting, and raises more important questions for the PM profession.”

In addition to the original papers, more news articles were added to the library archives this month, bringing the total to well over 2,200 articles. News archives can be accessed at <http://pmworldlibrary.net/ppm-news/>. See archives of past editions of the PMWJ at <http://pmworldlibrary.net/ppm-journals-and-magazines/>.
