

FAIR Institute Cybersecurity Resources

Access to the Factor Analysis of Information Risk (FAIR) Institute added to PMWL

Resource provided by [Livinus Nweke](#)

15 August 2017 – Rome, Italy – Access to a new resource has been added to the PM World Library related to the Security of Project Data, Information and Systems. The new resource is titled **Factor Analysis of Information Risk (FAIR) Institute**. The site is full of resources for project managers and information technology professionals.

Factor Analysis of Information Risk (FAIR) has emerged as the standard Value at Risk (VaR) framework for cybersecurity and operational risk. The FAIR institute is a non-profit professional organization dedicated to advancing the discipline of measuring and managing information risk. The following are objectives of FAIR institute:

- Provide information risk, cybersecurity and business executives with the standards and best practices to help organizations measure, manage and report on information risk from the business perspective.
- Focus on innovation, education and sharing of best practices to advance FAIR and the information risk management profession.
- Empower information risk officers, cyber security leaders and business executives to transform how information risk is managed.
- Help in leading the transition for a business-aligned approach to managing information risk.

To access this great resource, go to the Applications and Hot Topics section of the library at <http://pmworldlibrary.net/applications-and-topics/>, scroll down and click on “Security of Project Data, Information and Systems”. Must be a registered member and logged-in to access.
