

Technical Notes on Online Dispute Resolution

New document related to managing Online Dispute Resolution projects added to PMWL

Resource provided by [Stefano Castagna](#)

28 July 2017 – Vienna, Austria – Access to a new resource has been added to the PM World Library related to project management in the legal field. The new resource is titled “***Technical Notes on Online Dispute Resolution***”; it was published on the official United Nations Commission on International Trade Law (UNCITRAL) website and authored by UNCITRAL

These Notes of the United Nations Commission on International Trade Law have been drafted and adopted to be a non-binding document to help organize and manage online arbitration proceedings. They provide the “*reflecting elements*” of online dispute resolution. In addition, the document describes the stages of online dispute resolution proceedings, and provides comments on the technical requirements for successful management and delivery of an ODR project.

To access this new resource, go to the Industries and Organizations section of the library at <http://pmworldlibrary.net/industries-and-organizations/>, click on “Legal Field”, scroll down to resource. Must be a registered and logged-in as Free Trial, Professional or Scholar level member to access.

For post in PMWL:

[Technical Notes on Online Dispute Resolution \(2017\)](#) – Notes of the United Nations Commission on International Trade Law, drafted to provide a description of the best practices for the management of Online Dispute Resolution and its possible stages. Useful resource for those involved with international disputes and related legal projects. To read, go to http://www.uncitral.org/pdf/english/texts/odr/V1700382_English_Technical_Notes_on_ODR.pdf ([Castagna](#))
