

Litigation Risk Management and Alternative Dispute Resolution

Access to new resource related to project management in the legal field added to PMWL

Resource provided by [Stefano Castagna](#)

23 August 2017 – Milan, Italy – Access to a new resource has been added to the PM World Library related to project management in the legal field. The new resource is titled “Litigation Risk Management and Alternative Dispute Resolution”; and was originally published in Dispute Resolution, of the ABA Special Committee on Dispute Resolution, authored by Bruce L. Beron. This article was later republished in <http://litigationriskmanagement.com>.

This article considers different variables of risk management in alternative dispute resolution (ADR), with a bird’s eye view of ADR’s different components. The different techniques of legal risk management illustrated, according to the author, may be used by sophisticated parties, and are provided not to plan the outcome of a case *per se*, but to manage it according to the possible evolution and stage of the ADR process.

To access this new resource, go to the Industries and Organizations section of the library at <http://pmworldlibrary.net/industries-and-organizations/>, click on “Legal Field”, scroll down to resource. Must be a registered and logged-in as Free Trial, Professional or Scholar level member to access.

For post in PMWL:

[Litigation Risk Management and Alternative Dispute Resolution \(1986\)](#) – Bird’s eye view of Bruce L. Beron on the management of legal risk in ADR, published originally by Dispute Resolution.
