### ***PM World Collection grows to 2312 project management articles, papers & other works by 980 different authors in more than 60 countries***

15 September 2017– Dallas, London, Sydney – PM World has announced that 33 new articles, papers and other original works about program and project management (P/PM) have been added to the PM World Library (PMWL) this month. These contributions by 44 different authors in 20 different countries were published in the September 2017 edition of the [PM World Journal](#) (PMWJ). They can now be found among the most recent papers, articles and book reviews on the PMWL home page at [www.pmworldlibrary.net](http://www.pmworldlibrary.net).

The new additions bring the total in the PM World Collection to 2312 original works by 980 different authors in 65+ countries. The collection is growing each month by around 30 new works from many different authors; of the 44 authors this month, 12 were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at <http://pmworldlibrary.net/author-showcase/>.

According to PMWL Director David Pells, “This month we added nine ‘featured’ research papers and seven second editions, papers presented at three recent project management conferences. These are all serious papers, fully referenced and all digging into serious topics. Many are by authors who have never been published in the journal or library before, from many countries. We are happy to provide them with more well-deserved recognition.”

New authors in August include Adriano Barbosa (Brazil), Nicola Busby (UK), Dale Cooper (Australia), Ahmed Taha abd Elhameed (Egypt), Raghuv eer Gadiraju (India/USA), Ahmed Ismail (Turkey), Abdu Kisige (Uganda), Philipp Rosenberger (Austria), Joanna Sadkowska (Poland), Katharine Struzl (Austria) and John Walsh (USA). New works from 32 authors already included in the library were also added.

“The series articles continue to offer some of our most popular reads,” Pells adds. “This month we added five series articles, two advisories, a commentary by Alan Stretton and four great reports from correspondents in Argentina, Finland, Spain and UK. We welcome similar short articles by project management practitioners and experts every month.”
