

Management of Shipyard Projects: Insights and Lessons Learned

Resource related to Marine, Shipping, Sea Transport Industry added to PMWL

Resource provided by [Ömer Berkay Dağlı](#)

26 January 2018 – Southampton, UK – Access to a new resource has been added to the PM World Library on the subject of Marine, Shipping, Sea Transport Industry. The new resource is titled “**Management of Shipyard Projects: Insights and Lessons Learned**” and is an articles collection from the newsletters Upright & Afloat published by Fisher Maritime Consulting Group in 2008.

Selected articles are intended to convey to the reader the costly lessons learned by others in the maritime industry in association with projects being undertaken by shipyards on behalf of ship owners. With inputs from a literature review and lessons learned from different companies, articles demonstrate to avoid having to re-learn such lessons at great expense to any of the involved organizations.

To access this report, go to the hot topics section of the library at <https://pmworldlibrary.net/industries-and-organizations/>, scroll down and click on “Marine, Shipping, Sea Transport Industry”. Must be registered and logged in as Free Trial, Professional or Scholar member to access.

For PMWL Post
