

Risk Management for Contractors in Marine Projects

Resource related to project management in the Marine, Shipping, Sea Transport Industry added to PMWL

Resource provided by [Ömer Berkay Dağlı](#)

29 January 2018 – Southampton, UK – Access to a new resource has been added to the PM World Library on the subject of project management in the Marine, Shipping, Sea Transport Industry. The new resource is titled “**Risk Management for Contractors in Marine Projects**” and is a 2012 research paper prepared by Tam and Shen, published in *Organization, Technology and Management in Construction: An International Journal*.

The research focuses on contractor parties who work on marine construction work and aims to identify critical risks and risk response techniques in managing marine projects. With inputs from a literature review with government reports and 76 survey responses from different Hong Kong based contractors, the paper presents major risks in marine projects and how to response them.

To access this report, go to the Industries and Organizations section of the library at <https://pmworldlibrary.net/industries-and-organizations/>, scroll down and click on “Marine, Shipping, Sea Transport Industry”. Must be registered and logged in as Free Trial, Professional or Scholar member to access.

For PMWL Post
