

The Tasmanian Government Project Management Framework

Resource related to Public Project and Program Management Resources added to PMWL

Resource provided by [Ömer Berkay Dağlı](#)

20 February 2018 – Southampton, UK – Access to a new resource has been added to the PM World Library on the subject of Public Project and Program Management Resources. The new resource is titled “**The Tasmanian Government Project Management Framework**” is published in 2011 and prepared under the authorization of Office of eGovernment, Department of Premier and Cabinet in the State of Tasmania.

The framework comprised of the *Tasmanian Government Project Management Guidelines* and Supporting Resources was developed in collaboration with practising project managers. The Guidelines are presented in two sections: Section 1 provides an overview of projects and describes the characteristics of a project, why projects need to be managed and outlines the project management lifecycle. Section 2 describes the eleven Key Elements of project management in detail with practical information on how they should be applied throughout the project lifecycle.

The Supporting Resources are Fact Sheets and Templates: Fact Sheets contain explanations and guidance on how to develop and manage key aspects of a project. Templates provide support to develop project documentation to plan, monitor and report on projects. Also, the templates have attached guides for their use and application.

To access this new resource, go to Public P/PM Resources section of the library at <http://pmworldlibrary.net/public-ppm-resources/>, click on “Australian Agencies and Organizations”, then click on “Australian States and Territories”, scroll down to Tasmania. Must be a registered and logged in Trial, Professional or Scholar member to access.

For PMWL Post
