Evaluation of the FATİH Project

Access to new resource related Major Projects & Programs added to PMWL

[Resource provided by İsmail Can Kürtük](#)

10 March 2018 – Southampton, UK – Access to a new resource has been added to the PM World Library (PMWL) related to Major Projects and Programs. The new resource is titled “**Evaluation of the FATİH Project**”, a paper by Sönmez Pamuk and published in 2013 by Educational Consultancy and Research Center.

The FATİH project has been governed by Turkish Government to provide modern appropriate education model by using technological devices. The aim of project generally can be said to increase of education level and to prepare all Turkish students with modern technological education.

This paper includes a proper evaluation of the FATİH project in terms of the possibility of success, weak and strong points, impact on Turkish education system and benefits of using technology in modern education.

To access this new resource, go to the Major Projects and Programs section of the library at <https://pmworldlibrary.net/major-projects-programmes/> , click on Major ICT Projects, scroll down to resource. Must be a registered trial, professional or scholar member and logged-in to access.

This new resource provided through the PMWL university research internship program; [to learn more, click here.](#)
