23 March 2018 – Mumbai, India – Access to a new resource has been added to the PM World Library (PMWL) related to enterprise project management. The new resource is titled “How to manage the logistics behind project management in an enterprise business”, published on the Clarizen blog by David Goulden.

The resource’s main focus is on the challenges faced when leading an enterprise business project. From challenges it then moves on to taking measures in order to tackle these challenges and to conduct your enterprise business project in a more effective, efficient and organized fashion.

To access this new resource, go to the Applications and Hot Topics section of the library at <https://pmworldlibrary.net/applications-and-topics/>, click on “Enterprise Project Management”, scroll down to resource. Must be a registered trial, professional or scholar member and logged-in to access.

This resource provided through the PMWL’s research internship program; [To learn more click here](#)
