Investigation of the FATİH Project

Access to new resource related to major ICT projects & programs added to PMWL

[Resource provided by İsmail Can Kürtük](#)

24 March 2018 – Southampton, UK – Access to a new resource has been added to the PM World Library (PMWL) related to Major Projects and Programs. The new resource is titled “**Investigation of the FATİH project**”, a paper by Gok Ali and Yıldırım Zahide and published in August 2015 by *Mersin University Journal of the Faculty of Education*.

The Movement to Increase Opportunities and Technology or Fatih Project is a project initiated by the Turkish government in 2010 to integrate state-of-the-art computer technology into Turkey's public education system. The authors of this paper aimed to provide detailed and appropriate examination about the FATİH project to recognise opinions, expectations and worries from different stakeholders. Therefore, this paper includes the views of Teachers, School Administrators and YEGİTEK (General Manager of Innovation and Educational Technologies) Administrators. The study sought to learn whether the project will reach success or not and to give different approaches to fix weak points of the project if it has.

To access this new resource, go to the go to the Major Projects and Programs section of the library at <https://pmworldlibrary.net/major-projects-programmes/> , click on “Major ICT Projects”, scroll down to FATİH project. Must be a registered trial, professional or scholar member and logged-in to access.

This new resource provided through the PMWL university research internship program; [to learn more, click here](#)

For post in PMWL:

[Investigation of the FATİH Project](#) - A 2015 paper by Gok and Yıldırım contains the perceptions of stakeholders such as Teachers and School Administrators about FATİH project, what kind of factors effect achievement and what can be synthesis of those technologies into Turkish education.
