

The impact of logistics innovations on project management

Access to new resource related to contracting and procurement management added to PMWL

[Resource provided by Abhinav S Kumar](#)

3 April 2018 – Mumbai, India – Access to a new resource has been added to the PM World Library (PMWL) related to project procurement management. The new resource is titled “**The impact of logistics innovations on project management**”, a 2000 paper by Mary Poppendieck published by the Project Management Institute (PMI®).

The resource’s main focus is on the impact made by innovations in the field of logistics with respect to projects and project management activities. In this paper, great events in logistics are examined to uncover their impact on project management. There are various trends in every sector of an industry and by looking for trends in economic driving forces and noting innovations in logistics, project managers can predict the forces that will drive project management practices in the future.

To access this new resource, go to the Applications and Hot Topics section of the library at <https://pmworldlibrary.net/applications-and-topics/>, click on “Contracting/Procurement”, scroll down to papers. Must be a registered trial, professional or scholar member and logged-in to access.

This new resource provided through the PMWL university research internship program; [to learn more, click here](#)
