15 May 2018 – Dallas, London, Sydney – PM World has announced that 42 new articles, papers and other original works about program and project management (P/PM) have been added to the PM World Library (PMWL) this month. These contributions by 47 different authors representing 18 countries were published in the May 2018 edition of the [PM World Journal](#) (PMWJ). They can now be found among the most recent papers, articles and book reviews on the PMWL home page at www.pmworldlibrary.net.

The new additions bring the total in the PM World Collection to 2,591 original works by 1,119 different authors in 65+ countries. The collection is growing each month by 30+ new works from many different authors; of the 47 authors this month, 24 were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at <http://pmworldlibrary.net/author-showcase/>.

According to PMWL Director David Pells, “We have been publishing more student papers and book reviews this year, which dramatically increases the number of works and new authors each month. At the same time, we’ve added two new series recently and we continue to receive multiple featured papers which are more academic in nature. So the variety continues, which we hope is useful for more readers.”

New authors in May include Rony Al Helou (France), Maxime Bequin (France), Eugenie Blanchard (France), Hassan Coulibaly (France & Lebanon), Anne Dacy Ecklin (USA), Qianhang Fang (China & France), Les Foley (USA), Vitalis Irouke (Nigeria), Pierre Levaslot (France), Mark Loiselle (USA), Yadnyesh Nikam (India), Hitesh Patil (India), Cassandra Picasse (France), Lawrence Reid (USA), Michael Rosato (USA), Sarah Safarian (UAE & France), Ben Taylor (USA), Kurt Verweire (Belgium) and Assylkhan Ziyash (Kazakhstan). New works from 23 authors already included in the library were also added.

“I hope the student papers attract many readers,” Pells adds. “I’m happy that we are supporting more students and universities and hope this trend continues to grow. Even when these student research papers are only indirectly related to projects and PM, they often include some quite interesting information as well as new perspectives. I learn something new from every one of them.”
