

## Building a nuclear safe world - The Kazakhstan Way

**Access to new resource related to solving global problems added to PMWL**

Resource provided by [YerbolJangabulov](#)

23 September 2018 – Almaty, Kazakhstan – Access to a new resource has been added to the PM World Library (PMWL) related to solving global problems. The new resource is titled “**Building a nuclear safe world – the Kazakhstan way**”, a report by from the Nazarbayev Center and published on NuclearSafeWorld.org in 2014.

The book describes the close cooperation of Kazakhstan with the United States and with the United Nations in the matter of nuclear disarmament. We recall 1994, when the United States provided support to the newly emerging state. And Kazakhstan, in partnership with the United States, abandoned its nuclear weapons, which was the fourth largest collection in the world. It is told about the initiative of Kazakhstan in the creation of the world Nuclear Fuel Bank, where Kazakhstan wants to act as an intermediary between the nuclear superpowers - the USA and Russia.

Kazakhstan has established close friendly relations with the United States and Russia. The final goal of this initiative is the disarmament of these two countries and the storage of nuclear weapons in a Nuclear Fuel Bank on the territory of Kazakhstan. The main mission of Kazakhstan is that it wants to destroy all types of terrorism, including nuclear terrorism. The slogan of our country is “Can you imagine a world that is nuclear safe? Kazakhstan can”.

To access this new resource, go to the Solving Global Problems section of the library at <https://pmworldlibrary.net/solving-global-problems/>, click on “Ending Nuclear Risks”, scroll down to resource. Must be a registered member and logged-in to access.
