

The Implications for business due to Climate Change

Access to new resource related to solving global problems added to PMWL

Resource provided by [Harshit Madan](#)

20 May 2019 – Mumbai, India – Access to a new resource has been added to the PM World Library (PMWL) related to solving global problems. The new resource is titled “**Climate Change in 2018: Implications for Business**”, by Henderson, Reinert, Dekhtyar and Migdal and was published by the Harvard Business School in 2018.

From increasingly frequent heat waves and intense storms to sea level rise and biodiversity loss, climate change is impacting societies across the world, providing an uncomfortable preview of an unstable climate future. Climate change is a threat that risks disrupting the remarkably stable temperatures that have allowed human civilization to exist. The resource provides a comprehensive review of the causes, impacts, response mechanisms, implications, mitigation and opportunities for businesses in view of the changes in global climatic trends and conditions and their effects.

To access this new resource, go to the Solving Global Problems section of the library at <https://pmworldlibrary.net/solving-global-problems/>, scroll down to “Solving Global Environmental Problems”, click on “Addressing Climate Change”, scroll down to resource. Must be a registered member and logged-in to access.

This new resource provided through the PMWL university research internship program; [to learn more, click here](#)

For PMWL Post

Henderson, Reinert, Dekhtyar and Migdal (2018). **Climate Change in 2018: Implications for Business**; Harvard Business School, January 30. Available online at: <https://www.hbs.edu/environment/Documents/climate-change-2018.pdf> ([Madan](#))
