18th Global Festival of Knowledge Management

Industry and Society 4.0: Enabling Technologies, New Business Models and Competencies – 23-25 September 2019

1 June 2019 – Celje, Slovenia – The 18th KM Fest – Global Festival of Knowledge Management – will be held in Celje, Slovenia during 23-25 September 2019 under the theme of “Industry and Society 4.0: Enabling Technologies, New Business Models and Competencies.”

The 2019 KM Festival is being co-organized by Lens Living Lab, Competence Center ROBOFLEX and TCS – Toolmakers Cluster of Slovenia in collaboration with the community of international and regional innovation partners. The event is being sponsored by the regional Partnering Innovation project ROBOTool-1 and partnering EU Innovation project HORSE.

Industry 4.0 researchers, experts are invited to share their experiences and interest. Event has no registration fee, but there will be a limited number of seats available.

Venues include historic locations. For more information, [see their brochure here](#) or go to <http://kmfest.com/>.

KM Fest Program coordinator is Prof. Dr. Brane Semolic at LENS Living Lab / Competence Center ROBOFLEX. Registration information at info@toolscluster.net
