

## AI For The Earth

**Access to new resource related to AI and Project Management added to PMWL**

Resource provided by [Harshit Madan](#)

15 Nov 2019 – Mumbai, India – Access to a new resource has been added to the PM World Library (PMWL) related to AI and Project Management. The new resource is titled **“Fourth Industrial Revolution for the Earth: Harnessing Artificial Intelligence for the Earth”**, and was a report published by PwC in 2018.

With the fast-paced development of first-class technology, Machine Learning and Artificial Intelligence (AI), there is a growing concern, questions and excitement among the people about the future. But AI can be effectively used for the better and bigger causes of humans and earth. This paper talks of how the “Fourth Industrial Revolution” can be exploited to address the issues related to the earth and environment.

To access this overall impact, the paper covers the AI revolution part which showcases the power of AI. A list of descriptive techniques as to how AI can be used for our environment and earth is included. But as everything has its limitations, (so does AI), hence the paper also enhances and highlights some unintended consequences that AI can have on the earth. The listings of pros and cons of the AI can be effectively incorporated by industries, companies, governments and in general by humans to efficiently exploit the power of technology for a healthier and better future by smartly dodging its ill effects.

To access this new resource, go to the Applications and Hot topics section of the library at <https://pmworldlibrary.net/applications-and-topics/>, scroll down to “HOT TOPICS IN P/PM”, and click on “Artificial Intelligence (AI) and Project Management”, scroll down to resource. Must be a registered member and logged-in to access.
