## Project Management for Healthcare

### Update of classic book by David Shirley published by CRC Press

10 March 2020 – Florida, USA – CRC Press has announced the publication of ***Project Management for Healthcare, 2<sup>nd</sup> Edition***, by **David Shirley**. Published in February, this updated book covers significant changes in both the direction of healthcare and the direction of project management.

According to the CRC release: The most significant change in healthcare is the prevalence of online data and the need for its protection. The book explains how data can be protected during a project's lifecycle. The most significant change in project management is Agile, and a new chapter covers how Agile can be applied to projects in healthcare. This new edition also covers green technology and sustainability.

Exploring the discipline of project management from the perspective of the healthcare, the book dissects the project process and covers the management skills required to successfully manage a project. By defining a project to include the tools and techniques required, the book shows how to successfully deliver a project from identifying stakeholders and developing and gaining consensus on requirements to constructing a project plan. It also covers in detail the skills required to successfully manage project stakeholders and team members.

A Cleland Award winning author, David Shirley has been an adjunct faculty member for Boston University teaching project management and green IT. He has been a Member of the Graduate Faculty, New England College, Henniker, New Hampshire where he designed, developed and taught a managing projects course with a healthcare focus. He has been a project management consultant and between 2001 and 2005 as Director, Project Management Certification, Northern Essex Community College, Haverhill, Massachusetts, designed, developed and taught the program. Most recently he taught the PMP Exam Prep course for Boston University.
