2018 Editor's Choice Awards – Student Papers

Awards announced for student papers published in the PM World Journal during 2018

17 February 2019 – Dallas, London, Sydney – PM World has announced the winners of Editor's Choice Awards for student papers published in the *PM World Journal* (PMWJ) during 2018. 108 original student papers were published in the PMWJ in 2018, by graduate students at several accredited universities. Seven papers by student authors in four countries were selected for the 2018 awards. Five of the seven students are or were enrolled in 2018 at the Skema Business School in either Lille or Paris, France.

Editor's Choice Awards are selected each year by the Managing Editor of the PMWJ based on originality, potential impact on the practice and profession of program/project management, and quality of the paper. Student papers is a new award category this year, due to the number of student papers published in the PMWJ. All student papers are high-quality, fully-referenced, research papers. According to PMWJ Managing Editor David Pells, “I am excited about the number and quality of student papers that we received last year. Many of the Skema papers addressed various issues associated with contracts, dispute resolution or other project procurement and contracting topics. But many were from new or quite unique perspectives. Some were brilliant! All are worth reading! We want to encourage more students to research and write about projects and project management, which are so important throughout our world and to so many lives today.”

“If you are a professor or teacher of a project management course at any major university,” Pells adds, “and you have research papers produced by your students, please encourage them to submit completed papers to us for publication. It can provide good visibility for the student, professor, PM program and school. This is also often the first publication for many students and can be quite motivational, as well as a useful addition to her or his CV.”
