

Project Management Maturity Across Industries

Access to new resource related to Project Management Maturity added to PMWL

Resource provided by [Milan Choudhury](#)

6 November 2020 – Nagpur, India – Access to a new resource has been added to the PM World Library (PMWL) related to Project Management maturity. The new resource is titled “**The maturity of project management in different industries: An investigation into variations between project management models**”, a paper by Terence J. Cooke-Davies and Andrew Arzymanow published in the *International Journal of Project Management*, 2002.

The study was initiated with a view to find an optimum project management model. Six industries were selected to record variations in project management practices and this was done through 31 in-depth interviews with project management practitioners (subject matter experts) in 21 organizations. The organizations included the following sectors; big and medium pharma, telecommunications, construction, defense, financial services and petrochemical industries.

To access this new resource, go to the Applications and Hot Topics section of the library at <https://pmworldlibrary.net/applications-and-topics/> scroll down and click on “Maturity in Project/Program Management”, scroll down to resource. Must be a registered trial, student or full member and logged-in to access.

This new resource provided through the PMWL university research internship program; [to learn more, click here](#)

For PMWL Post

Cooke-Davies, T. J. and Arzymanow, A.(2002), “**The maturity of project management in different industries: An investigation into variations between project management models**”, *International Journal of Project Management* 21 (2003) 471–478.
