According to PMWJ editor David Pells, "I am very happy and honored to introduce Yanping Chen as our newest global advisor. We have known each other for nearly 20 years; I was happy when she joined the PMI Board of Directors in 2005 where she served PMI and the PM profession for six years. Her subsequent leadership on various PMI councils and executive task forces has been equally significant, including her time as Chair of PMI's Global Accreditation Center."

Yanping stated, "I am honored by your invitation to be an honorary advisor for the PMWJ. At UMT, we do have strong PM programs at both graduate and doctoral levels and have an online library. I would like to see if we can include PMWJ and PMWL in some way. Thanks for all your work."

Pells added, “Yanping and I used to discuss the importance of project management in space agencies and programs. Now with a space race underway again not only among countries but also private industries, and with near-Earth space technologies so important for dealing with climate change and extreme weather, this topic seems more important than ever.”
