Wideman PM Website updates announced for November 2021

1 November 2021 – Ontario, Canada – **Max Wideman** has announced updates to his popular project management website, www.maxwideman.com. According to Max (pictured), this month we've added the following:

Papers: A book review of [A Guide to the Project Management Body of Knowledge \(The PMBOK\(R\) Guide](#), 7th Edition published by the project management Institute. As noted last month, this is the second book in the combined publication. It has been completely rewritten, with much behavioral material added and most of the previous essential project management skill sets removed. While the contents may be useful, it is not consistent with the previous Guides to the PMBOK and, in our view, is misnamed.

Guests: *Angela Civitella* presents her [Top 7 Tips for Good Decision Making](#). When Feeling Stressed Out. Good advice for a lot of project managers who encounter this situation.

Musings: As a project manager, are you thinking of [Crossing to a Different Industry](#)? If so, *Kiron Bondale* says it is not easy, but possible. Kiron offers good advice as to how to do so.

~~~~~

### Project management tip of the month

The doing-getting principle:

*If you keep on doing what you've always been doing,  
you'll keep on getting what you have always been getting.*

~~~~~

If you are looking for answers, guidelines or templates, check out Max's **Issacons** - "Issues and Considerations" - that are presented in bullet form for quick and easy reference by project managers.

Have you seen Max's book **A Management Framework for Project, Program and Portfolio Integration**? For information or to order a copy, visit http://www.maxwideman.com/papers/framework_book/intro.htm.

Max Wideman is one of the world's best-known project management authorities. An engineer and professional project manager, his experience includes systems, social and environmental projects, as well as design and engineering projects. He is a Fellow

of the Project Management Institute, of which he is past president and chairman and for which he led the development of the 1987 version of the Project Management Body of Knowledge. He is also a Fellow of the Institution of Civil Engineers (UK), the Engineering Institute of Canada, and the Canadian Society of Civil Engineering. His personal web site at <http://www.maxwideman.com> is a source of superior project management knowledge and information. It is free to the public.
