

For Immediate Release

Prof Carrie Sturts Dossick at UW in Seattle appointed PMWJ Honorary Academic Advisor

Professor of Construction Management and BIM/Smart Building Technologist at University of Washington joins international advisory team for PM World Journal and Library

27 January 2022 – Dallas, TX, and Seattle, WA, USA – PM World has announced the appointment of **Professor Carrie Sturts Dossick** as an honorary academic advisor for the *PM World Journal* (PMWJ) and PM World Library (PMWL). Dr. Dossick is Professor of Construction Management and Associate Dean for Research in the College of Built Environments at the University of Washington in Seattle, Washington state, USA.

Prof Dossick is also the director of the Communication, Technology, and Organizational Practices Lab in the Center for Education and Research in Construction ([CERC](#)). Dr. Dossick has over two decades of research and teaching experience primarily focused on emerging collaboration methods and technologies such as Integrated Project Delivery (IPD), Building Information Modeling (BIM), Virtual Reality (VR), and Smart Building Technology. She is an active member of the National Institute of Building Sciences and currently serves as the co-Chair for the National BIM Standard Planning Committee.

Her current research and teaching projects include [Cybersecurity for Large Institutional owners](#), a Pankow funded project on Owner Decision-making and Project Delivery, The Core BIM Module for the National BIM Standard US, an [Introduction to BIM for Construction Management Certificate](#) with Skanska, a new online [Certificate for digital fabrication workflows](#) for concrete formwork with Turner Construction, and the IB Index with the University of Technology Sydney. Recent work includes BIM-based information exchange between design, construction and operations, BIM Standards and Processes for the Port of Seattle, the use of Virtual Reality for Facilities Management Training, and BIM workflows for Preconstruction Services. For more, visit [Recent Technical Publications](#).

Dr. Dossick holds a PhD in Civil Engineering from Columbia University, New York; MS and BS in Civil Engineering, Fu Foundation School of Engineering and Applied Science; and a BA Pre-Engineering, Columbia College, USA.

According to PMWJ editor David Pells, “I am very happy to welcome Professor Dossick to our global advisory team for several reasons. Her research, teaching and writing focus on BIM, smart building technology, and other emerging technologies and approaches in construction. She is actively engaged in research projects for various government and industrial organizations. And she is a professor at my Alma Mater, the University of Washington.”

Prof Dossick stated, “I am happy to join PM World’s team of international academic advisors. While BIM and smart building technologies have been the subject of academic work for

more than a decade, they are just now being introduced in many organizations and places. Since the PMWJ is a practitioner-oriented publication, this is an exciting opportunity to introduce our work to program and project professionals with real projects to design, plan and build.”

Pells added, “I’ve become familiar with Professor Dossick’s research and academic work over the last 18 months and would love to add resources on these topics in both the PM World Journal and Library. These are important trends in the construction industry, with important implications and applications worldwide.”

PM World engages with professional and academic leaders in various countries to support the organization’s dual missions of advancing knowledge sharing and continuous learning related to modern program and project management.
