World Project Management Forum

Charter

Today is a result of our actions of yesterday. The only thing we can do today is to build tomorrow. DNA of future lies in present. In fact, the word project is derived from the Latin word 'projectum' which implies 'to throw something forward'.

The Charter of the World Project Management Forum (WPMF) is for a continual exchange of ideas to address major concerns and solutions through best and next practices deployed in the front end of vision realisation i.e. project creation by taking full cognizance of technological advancements and sustainability considerations such as impact on climate change. **Vision realisation should balance economic, social and ecological considerations. The finer aspects of the vision realisation must be integrative in meeting demands of the present without compromising the ability of future generations to meet their own needs.** The Charter also encourages the exchange of ideas for the other two aspects, namely project delivery and benefits realisation. That is because optimising project delivery needs to be linked with the benefits visualised at the time of project creation.

Project management is the art and science of converting vision into reality. This reality can only be achieved by undertaking of projects. It is estimated that over 25% of global GDP, that is, almost \$20 trillion is delivered via projects. We need more advocacy to establish projects as a medium to transform vision to reality.

In a generic sense, there are three broad aspects to Vision Realisation (VR). The first aspect of VR is in project creation implying the front end of aligning stakeholders with governance and in-built transparency acting as a common denominator across the entire cycle of VR. Project creation is driven either in anticipation of, or due to, compulsions of change focussing on 'Why' and 'Why Not' aspects. **This front end or macro aspects of project management i.e. project creation is the master key for success of vision realisation. Obviously, this phase of project creation has a major impact on achieving both tangible and intangible benefits as initially visualised.**

The other two aspects of VR are that of project delivery (traditional project management at the micro level) and benefits achieved (outcome) linked with the visualised benefits at the time of project creation.

When does the phase of a project delivery cycle start? It is when the sponsoring organization starts spending resources on the project delivery leading to project outcome or benefits achieved.

Society is facing many challenges in today's dynamic, unpredictable and disruptive Volatile-Uncertain-Complex-Ambiguous (VUCA) world that requires a global understanding and convergence of the cyberspace, the physical space and bio space given the context of fourth industrial revolution in thinking amongst stakeholders. Some of the most significant issues and challenges that needs to be addressed includes sustainability of planet earth and the uncertainties caused due to technological breakthroughs and disruptions. We need to be agile in understanding unpredictable factors and in dynamically recalibrating the benefits visualised at the time of project creation.

The World Project Management Forum (WPMF) will also catalyse the development of a 'Project Mindset' to deal with uncertainties by taking a 'holistic' global view keeping in view **Vasudeva Kutumbakam – the 'whole world is a family' which is a reality today in an increasingly global inter-connected world with multi-cultural complexities which can be leveraged.**

WPMF Charter Signatories who have signed as Individuals

India

- Adesh Jain, Chairman, i2P2M
- DV Kapur, Founding Chairman of NTPC
- TKA Nair, Member of the Intl. Advisory Board JICA Japan, was Advisor to the former Prime Minister of India
- RC Bhargava, Chairman, Maruti Suzuki India Ltd
- Yaduvendra Mathur, Special Secretary, NITI Aayog
- Gurdeep Singh, Chairman & MD, NTPC
- Sanjiv Singh, Chairman, Indian Oil
- Anil Kumar Chaudhary, Chairman & MD, SAIL
- Dr. Sudhir Mishra, MD & CEO, BrahMos
- Katsuo Matsumoto, Chief Representative, JICA
- Prabh Das, MD & CEO, HMEL
- Ruchira Jain, MD, CEPM
- Dr. Emandi Sankara Rao, MD & CEO, IFCI

* Names are listed as per the date of their acceptance

Designations are as on : 24.11.2019

Since we floated the idea of WPMF in March 2019, we have received very enthusiastic response in initiating the WPMF Meet from over 150 professionals across the world. Some early responses are :

I am very excited about your vision, Adesh! (Andy Kaufman, USA)

"Congratulations! This is a great and important initiative that the world needs. The project management profession needs a higher purpose. (David L Pells, USA)

It is amazing how one simple page can offer such breadth and depth and have the potential for significant world-wide impact. Good for you! I wholeheartedly agree with your emphasis on the front end visualization as one of the key project success factors. (Drew Davison, Canada)

I think this initiative is timely, for at least three reasons.
One: It is clear and becoming even clearer that society is facing many challenges that require a global response. Over 25% of GDP is delivered via projects. (Peter Morris, UK)

I consider your idea exceptional and intriguing, Adesh (Tomasz Wrzesiewski, Poland)

This appears to me as a timely initiative. I fully support your initiative. (Gilles Caupin, France)

I personally believe is an excellent endeavour - a global platform for all project professionals across the world. (Md. Abdullah Al Mamoon, Bangladesh)

This is an excellent initiative to improve the macro level of project visualisation. (Pevvila, Villar Diaz, Victor, Peru)

----------------------------------------------------------------	-------------------------------------------------------------

Organisers:

Centre for Excellence in Project Management (P) Ltd. (CEPM), formed in 1992 has 650+ clients covering public and private sector, central/state government. Since 1992 it organises an annual global symposium on PM and it laid the scientific foundation of project management in India when it organised India’s 1st international conference in association with UNDP. A foremost PM training and consulting company it has conducted 1000+ programs on varied aspects of project and program management. CEPMs portfolio includes:

- Annual symposiums on PM
- WPMF Meets
- Int’l PM Team Excellence Award competition (I-PMTEA)
- PM Knowledge Assessment
- Organisation PM Maturity Assessment
- Real time Project and Business simulations
- Project Services including Engineering and Contract management
- Published 14 books on PM

CEPM’s flagship curriculum, Totality of Project Management (TPM) which has exhaustive coverage of entire PM processes from concept to closeout across 8 project life cycle phases is in line with NITI Aayog’s recommendations for project management curriculum. TPM covers both hard and soft skills and addresses some of the specific issues relevant to India. The ISO 17024:2012 accredited CIPM credential that is offered and administered by i2P2M is aligned to the TPM curriculum.

International Institute of Projects and Program Management (i2P2M) a non-profit, company formed in 2008 is foremost in imparting executive education. It’s International/Executive Diploma in Project Management (I/EDPM) in association with George Washington University (GWU), Washington D.C. has a 360 degree coverage through 5 major modules.

I/EDPM builds competencies resulting in measurable benefits

NITI Aayog has recognised i2P2M as one of the 4 global PM certification bodies. The Certificate in Project Management (CIPM) credential is awarded by i2P2M, which is the only Indian Company with ISO 17024:2012 accreditation for it’s Certificate In Project Management. i2P2M has a MoU with Philippine Institute of Civil Engineers (PICE) & CMDF of Govt. of Philippines to make EDPM and TPM as standards for Philippines.
