

Happy 10th Anniversary to PM World Journal and Congratulations ¹

LETTER TO THE EDITOR

17 July 2022

Dear David

I want to extend sincere gratitude and respect to you for building such a worldwide platform for PM professionals to share views and learn from each other. You have earned my admiration for insisting on doing the extraordinary job for as long as one decade despite various hardships and difficulties. It is my honor to know you and have cooperated with you for nearly five years. Thanks to your help and support, I have interviewed many distinguished experts in the PM field, which broadened my knowledge and enriched my experience. Via the journal, you've gathered professionals from diverse backgrounds and I really enjoy the diversity, openness and depth of the journal.

In the Project Economy era, projects are inevitably a means to embrace volatility, uncertainty, complexity, ambiguity (VUCA) and deal with global challenges. I believe in the coming years PM World Journal will continue to play its leading and pioneering role as a global PM media.

It is a pity that I have never met David Pells face-to-face, but sometimes I have the illusion that we have known each other for long. He is always there to help and share when I am at a loss and in need of help and guidance. I am more than impressed by his being considerate, helpful, resourceful, generous, polite, kind, professional, etc. Heartfelt thanks to David Pells again for being such an admirable partner, friend and guide on my way forward. I hope that our friendship and partnership will last.

Best wishes to David Pells and PM World Journal!
