

**UNIVERSITY OF NAIROBI**  
**DEPARTMENT OF MANAGEMENT SCIENCE AND PROJECT PLANNING**  
**FACULTY OF BUSINESS AND MANAGEMENT SCIENCES**

**4<sup>TH</sup> ANNUAL INTERNATIONAL CONFERENCE OF PROJECT PLANNING AND MANAGEMENT**

**[CALL FOR ABSTRACTS AND FULL PAPERS \(aicppm-conf@uonbi.ac.ke\)](mailto:aicppm-conf@uonbi.ac.ke)**

**INTRODUCTION**

The University of Nairobi's Faculty of Business and Management Sciences and the Department of Management Science and Project Planning, will hold the **4<sup>th</sup> Annual International Conference of Project Planning and Management** during the University of Nairobi's 2022 Research Week. The theme of the 4<sup>th</sup> Annual Conference is: "**Emerging Project Planning and Management Research and Technology for Sustainable Communities**". Emerging research and technologies are radically novel and relatively fast-growing research topics and technologies characterized by a certain degree of coherence, and a considerable scientific and sustainability impacts on communities.

This conference is multi-disciplinary and will bring together experts to share best practices and latest developments in the field of project planning, design and implementation. Speakers from higher education institutions, construction projects, transport projects, social projects, education projects, health projects, engineering, anthropology, sociology, environment, economics, management, information communication technology, and other development game-changers across the globe.

**CONFERENCE FORMAT**

**The conference will be conducted virtually through the University of Nairobi conference link which will be provided to the registered participants after 14th October, 2022, which is the deadline for registration.** The conference will comprise of presentations and panel discussions which will provide participants with opportunity to interact with eminent scholars, private sector practitioners, industry, policy makers, opinion leaders, representatives from diplomatic corps and National and county governments.

Dissemination of project management research findings, policy briefs by academicians, policy development and practitioners' experiences which propel the efforts towards attaining Sustainable Development Goals (SDGs) will be the focus of the conference. This three-day conference will provide a platform to explore further the best practices in project management.

Selected papers that will meet the quality and novelty standards will be reviewed and published in the University of Nairobi's African Journal of Project Planning and Management (AJPLAM).

Day 1 will take the form of plenary and interactive presentations while Day 2 and 3 will take some more-interactive research presentations and discussion forums to enable participants to gain skills and knowledge on how to plan, design, implement, monitor and evaluate programmes and projects with a view to coming up with policies and practices that support the achievement of sustainable economy and development.

## **CONFERENCE OBJECTIVES**

The main objective of the conference will be to provide researchers, postgraduate students and practitioners from the universities, organizations, individuals and other experts an opportunity to showcase their research output. Specifically, the conference will provide:

- a. An opportunity through which novel and impactful research findings and products will be released in the global market
- b. An opportunity through which participants will learn from world renown experts and researchers on issues related to project management
- c. A forum for stakeholders both international and local to deliberate and share information and ideas on project planning and management
- d. A platform through which Universities, organizations and individual participants will increase their visibility
- e. An opportunity for networking and collaboration

**THEME: "Emerging Project Planning and Management Research and Technology for Sustainable Development of Communities".**
