Wideman PM Website updates announced for September 2022

1 September 2022 – Ontario, Canada – **Max Wideman** has announced updates to his popular project management website, www.maxwideman.com. According to Max (pictured), here are my latest site entry details.

Guest: Author *Angela Civitella* offers [Nine Lessons for Leadership No One Mentions](#) because they are all things that you would likely learn as you go along by rolling up your sleeves and getting your hands dirty. As Angela describes them, the nine lessons cover: Opportunities, Micro-worrying, and Satisfaction; Connections, Overnight Success and Neglect; and Failure, Spread and Teamwork.

Paper: [Moving to a Different Industry - How to go about it?](#) *Kiron Bondale* and *Max* have touched on this topic before in a Musings: **Crossing to a Different Industry** (November 2021), where we warned that it is not that simple. In this paper we dig deeper. Basic project management is formed from the application of a whole variety of "Tools and Techniques" depending on the requirements and the project environment. If the projects in the new environment depend on different technologies, expect that the management of such projects will also be different.

If you are looking for answers, guidelines or templates, check out Max's **Issacons** - "Issues and Considerations" - that are presented in bullet form for quick and easy reference by project managers.

Have you seen Max's book **A Management Framework for Project, Program and Portfolio Integration**? For information or to order a copy, visit [http://www.maxwideman.com/papers/framework\\_book/intro.htm](http://www.maxwideman.com/papers/framework_book/intro.htm).

**Max Wideman** is one of the world's best-known project management authorities. An engineer and professional project manager, his experience includes systems, social and environmental projects, as well as design and engineering projects. He is a Fellow of the Project Management Institute, of which he is past president and chairman and for which he led the development of the 1987 version of the Project Management Body of Knowledge. He is also a Fellow of the Institution of Civil Engineers (UK), the Engineering Institute of Canada, and the Canadian Society of Civil Engineering. His personal web site at <http://www.maxwideman.com> is a source of superior project management knowledge and information. It is free to the public.
