Wideman PM Website updates announced for October 2022

1 October 2022 – Ontario, Canada – **Max Wideman** has announced updates to his popular project management website, www.maxwideman.com. According to Max (pictured), here are my latest site entry details.

Paper: Previously published in April 2009, this paper [first principles revisited](#) provides basic concepts underlying the practice of project management. It should be carefully studied and the concepts committed to memory. Doing so, will considerably enhance your capability and confidence in performing your responsibilities in the project environment. It goes without saying that for satisfactory outcomes you must also understand the basics of the technology you are dealing with.

Project management tip of the month

**The no-planning principle:
The really nice thing about not planning
is that failure comes as a complete surprise
and is not preceded by long periods of worry and depression!**
