## **Projects, Government, and Public Policy**

### ***New book by Dr. Stanislaw Gasik offers Project Management Guidance to Project Administrators and Leaders in Governments Everywhere***

7 December 2022 – Warsaw, Poland and Dallas, TX, USA – CRC Press has announced publication of a long-awaited book by Polish professor and researcher of international government project management best practices, Dr. Stanislaw Gasik. Titled “Projects, Government and Public Policy”, this 376-page book is written for governments and government administrators, including the most influential decision-makers, who craft policies to guide a country’s development as well as how to implement projects.

Many governments have effectively organized public project implementation systems in their jurisdictions. At the same time, many other countries remain at a less advanced level of public project management. Globally, there is a need for project management knowledge to be transferred between governments. However, no systematic review of these practices has been developed to date. *Projects, Government, and Public Policy* was written to fulfill this need and presents a review of project management practices in countries with developed project-based capabilities.

This book uses its own rigorous model to present this review systematically. This book’s practical purpose is to give a structured overview of government-level project management practices. This knowledge can be used in the work of governments to improve the management of public projects and the implementation of public policies.
