31 new works added to PM World Library

PM World Collection grows to 4488 project management articles, papers & other works by 1,794 authors in more than 50 countries

14 December 2022 – Dallas, London, Sydney – PM World has announced that 31 new articles, papers and other original works about program and project management have been added to the PM World Library (PMWL) this month. These contributions by 31 different authors representing 13 different countries were published in the December 2022 edition of the *PM World Journal* (PMWJ) at <https://peworldjournal.com/>. They can now be found among the most recent papers and articles on the PMWL home page at <https://peworldlibrary.net/>.

The new additions bring the total in the PM World Collection to 4,488 original works by 1,794 different authors located around the world. The collection is growing each month by an average of 25-35+ new works from many different authors; of the 31 authors this month, six were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at <http://peworldlibrary.net/author-showcase/>.

According to PMWJ Managing Editor David Pells, “We welcomed new authors from important new sources this month. One featured paper was by executives at Hill International, a major U.S. engineering and construction firm. Two others were by experienced professionals in Indonesia, whose papers were part of their submissions for AACE certifications. A new report is by Lindsay Scott, well-known founder of the House of PMO in the UK.”

New authors this month include Gauranga Deka (USA), Gregory Heinze (USA), Joseph Pooler (USA), Bonifacius Raditya (Indonesia), Presati Widya Putra (Indonesia) and Lindsay Scott (UK). New works from 25 authors already included in the library were also added.

“We also republished another paper from the 2022 UT Dallas PM Symposium, an interesting one by former PMI Dallas Chapter president Mei Lin,” Pells adds. “Finally, we are ramping up our book reviews again after the years of covid slow down. Three new ones are included this month.”
