33 new works added to PM World Library

PM World Collection grows to 4578 project management articles, papers & other works by 1,811 authors in 90+ countries

15 March 2023 – Dallas, London, Sydney – PM World has announced that 33 new articles, papers and other original works about program and project management have been added to the PM World Library (PMWL) this month. These contributions by 34 different authors representing 17 different countries were published in the March 2023 edition of the *PM World Journal* (PMWJ) at <https://peworldjournal.com/>. They can now be found among the most recent papers and articles on the PMWL home page at <https://peworldlibrary.net/>.

The new additions bring the total in the **PM World Collection** to 4,578 original works by 1,811 different authors located around the world. The collection is growing each month by 25-35+ new works from many different authors; of the 34 authors this month, eight were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at <http://peworldlibrary.net/author-showcase/>.

According to PMWJ Managing Editor David Pells, “It seems that each month we are receiving exciting new works to publish on rather important topics. Many are authors who have contributed previously, many of whom are recognized authorities in the PM world. This month is no exception, with powerful new works in most categories. Contributions by series authors have also increased this year, which is great.”

New authors this month include Jesus Martinez Almela (Spain), Kevin Darbelnet (USA), Maria Davies (USA), Mahmoud Desouky (Qatar), Brenda Kwateng (USA), Sre Sudharsan (India), Ricardo Viana Vargas (Portugal/Brazil) and Phoebe Were (USA). New works from 20 authors already included in the library were also added.

“We are also trying to include more Second Editions, older papers that deserve new attention like the four this month” Pells adds. “More book reviews are also coming in, which also add interesting content. Our book reviews are intended to not only critique PM books but also create a little new knowledge, based on the reviewer’s knowledge and insights. So please don’t ignore this section of the journal each month.”

The **PM World Library** is a global resource for continuous learning in program and project management. The PMWL is produced and maintained by PM World, Inc. which also produces the monthly *PM World Journal* (ISSN: 2330-4480), a free monthly digital publication featuring dozens of articles, papers and stories about projects and project management around the world.
