#### **PM World Collection grows to 4618 project management articles, papers & other works by 1,824 authors in 90+ countries**

19 April 2023 – Dallas, London, Sydney – PM World has announced that 39 new articles, papers and other original works about program and project management have been added to the PM World Library (PMWL) this month. These contributions by 46 different authors representing 18 different countries were published in the April 2023 edition of the *PM World Journal* (PMWJ) at <https://peworldjournal.com/>. They can now be found among the most recent papers and articles on the PMWL home page at <https://peworldlibrary.net/>.

The new additions bring the total in the **PM World Collection** to 4,618 original works by 1,824 different authors located around the world. The collection is growing each month by 30-40+ new works from many different authors; of the 46 authors this month, 9 were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at <http://peworldlibrary.net/author-showcase/>.

According to PMWJ Managing Editor David Pells, “April was a busy month, and the April PMWJ was as full as it’s ever been. For one thing, we’re attracting more advisory articles, which is great since we are supposed to be a practitioner-oriented journal.”

New authors this month include: Low Daniels (USA), Josheph Dziurman (USA), Richard Fisher (USA), Tracy Gilmore (USA), Dr. Al Jaafari (Australia), Keith Katyora (South Africa), Charlotte Kemp (South Africa), Thomas Schlereth (Germany), and A. W. Schultz (USA). New works from 36 authors already included in the library were also added.

“The second edition papers and book reviews also increase the contents this month, as they do most months” Pells adds. “In addition, our correspondents from around the world are submitting more reports than ever. This is great, as the reports provide us with some snapshots of what’s going on around the PM world each month. So don’t miss reading the reports.”

The **PM World Library** is a global resource for continuous learning in program and project management. The PMWL is produced and maintained by PM World, Inc. which also produces the monthly **PM World Journal** (ISSN: 2330-4480), a free monthly digital publication featuring dozens of articles, papers and stories about projects and project management around the world.
