26 new works added to PM World Library

PM World Collection grows to 4,914 project management articles, papers & other works by 1,927 authors in 90+ countries

15 January 2024 – Dallas, London, Sydney – PM World has announced that 26 new articles, papers and other original works about program and project management have been added to the PM World Library (PMWL) this month. These contributions by authors in 17 different countries were published in the January 2024 edition of the *PM World Journal* (PMWJ) at <https://peworldjournal.com/>. They can now be found among the most recent papers and articles on the PMWL home page at <https://peworldlibrary.net/>.

The new additions bring the total in the **PM World Collection** to 4,914 original works by 1,927 different authors located around the world. The collection is growing each month by 25-35 new works from many different authors; of the 30 authors this month, 12 were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at <http://peworldlibrary.net/author-showcase/>.

According to PMWJ Managing Editor David Pells, “We start off the new year with some good and important new works. The six featured papers by very experienced authors hit both new and old topics in the PM field. Bob Prieto, for example, has offered an entirely new model for understanding very large complex projects. Two papers reinforce good stakeholder engagement practices. Alan Stretton, Raju Rao and Prof Harake also address some critically important topics.”

New authors this month include: Alex Barra (USA), Michael Branham (USA), Brenda Maria Lopez Cabrera (Mexico), Sarah Delgado Visser (USA), Chirstine Evelyn Gwaze (USA/Zimbabwe), JD Johnson (USA), Gunash Kamzaevi (Azerbaijan), Nikunj Nirmal (USA), Silvia Mari (Switzerland), Teresa Ramos (Spain), Vijaya Kumar Umasekar (UAE) and Beza Woda (USA). New works from 18 authors already included in the library were also added.

“The five series articles this month also address important topics,” Pells adds. “That includes the first in a new series by Dr. Hugo Minney in UK related to benefits management. The two advisory articles are excellent, the three reports are newsworthy, the three second editions are worth reading and the five book reviews create new knowledge. Once again, I’m proud to support our authors who are sharing such good knowledge and experience with others via the PMWJ.”

The **PM World Library** is a global resource for continuous learning in program and project management. The PMWL is produced and maintained by PM World, Inc. which also produces the monthly *PM World Journal* (ISSN: 2330-4480), a free monthly digital publication featuring dozens of articles, papers and stories about projects and project management around the world.
