33 new works added to PM World Library

PM World Collection grows to 4,982 project management articles, papers & other works by 1,947 authors in 90+ countries

15 March 2024 – Dallas, London, Sydney – PM World has announced that 33 new articles, papers and other original works about program and project management have been added to the PM World Library (PMWL) this month. These contributions by 38 authors in 19 different countries were published in the March 2024 edition of the *PM World Journal* (PMWJ) at <https://peworldjournal.com/>. They can now be found among the most recent papers and articles on the PMWL home page at <https://peworldlibrary.net/>.

The new additions bring the total in the **PM World Collection** to 4,982 original works by 1,947 different authors located around the world. The collection is growing each month by 30-40 new works from many different authors; of the 38 authors this month, 9 were new to the journal and library. Profiles of all authors in the library, along with access to their works, can be found at <http://peworldlibrary.net/author-showcase/>.

According to PMWJ Managing Editor David Pells, “This is another full, diverse and interesting edition. This is due to one primary reason, the value apparently received by our authors. Over 70% of our contents each month now seem to be from repeat authors, those who have appeared in the PMWJ before. This is a point of pride, that we are publishing quality works that other authors want to be associated with. Hopefully we can continue to produce interesting new works that contribute to the global body of knowledge in project management.”

New authors this month include: Hamad Essa Aldossary (Saudi Arabia), Muhammad Danish Ali (USA), Adigwe Chukwuemeka (Nigeria), Kevin Dorsey (USA), Michael O. Joel (Nigeria), Devin Mahoney (USA), Osazuma Edosa Mark (Nigeria), Ivan Milovidov (USA) and Ivan Pradibta (Indonesia). New works by 29 authors already included in the library were also added.

“Of course, our readers are important too,” Pells adds. “and we’re happy our readership is growing. But since our mission is to support knowledge sharing, my primary activity is attracting, editing and publishing quality works. PM professionals gain experience and knowledge throughout their careers. Authoring a good article or paper can enhance that knowledge; sharing through publication can also bring other benefits including enhanced CVs, recognition and even PDUs or CEUs for recertification purposes.”

The **PM World Library** is a global resource for continuous learning in program and project management. The PMWL is produced and maintained by PM World, Inc. which also produces the monthly *PM World Journal* (ISSN: 2330-4480), a free monthly digital publication featuring dozens of articles, papers and stories about projects and project management around the world.
